“The new collections combine the best of the two Brands
and feature a perfect fusion between design,
function and craftsmanship”

Two Brands with a Rich History and Unique Heritage

Stuttgart/Como. Porsche Design and BRIC'S have entered into a long-term partnership to bring a new line of bags, luggage, and small leather goods to the market. Both brands unify rich histories rooted in a family business and unique heritage, making each of their products exceptional. The new Collection combines the best of the two brands and features a perfect fusion of design, function, and craftsmanship.

Porsche Design was founded in 1972 by Professor Ferdinand Alexander Porsche – the designer of the legendary Porsche 911. His credo *"if you analyze the function of an object, its form often becomes obvious"*, and the associated design philosophy can still be seen in all Porsche Design products. Every article stands for extraordinary precision and perfection, engineered passion, and seamlessly combines intelligent functionality with pure design. BRIC'S, established in 1952 by Mario Briccola, is a family-owned business. The Italian travel brand is known worldwide for its exceptionally designed travel and fashion accessories with 70 years of industry expertise, history, long-standing regional roots, and passion. BRIC'S stays true to the values of the Made in Italy culture and philosophy, which is a part of the company's inner soul and evident in every detail and production site, giving life to each product.

The collaboration fuses Porsche Design's functional design philosophy and engineered mindset with BRIC'S fine craftsmanship and manufacturing competence. Combining the heritage of the two renowned brands, the new Porsche Design luggage and leather Collection reflects timeless elegance, innovation and tradition, as well as functionality and high quality.

"With BRIC'S we have a partner who brings a rich heritage, a lot of passion, and many years of experience in the manufacturing sector of fine leather and travel goods into this collaboration. This expertise will further elevate and expand our well-known bags and luggage Collection, helping us to take the category to the next level. We are looking forward to kicking off this partnership and introducing the new Porsche Design bags & luggage Collection", says Jan Becker, CEO Porsche Design Group.

Roberto Briccola, President of BRIC'S, affirms *"We are enthusiastic about the alliance with Porsche Design: a synergy that arises from the value of the two brands, and from the functional design philosophy of Porsche Design which identifies itself with the genius of Ferdinand Alexander Porsche. Our production has always been characterized by constant development, where innovation and tradition, functionality, and elegance are intertwined, and balanced with skilled craft, advanced technology, interpretation of new trends, attention to market demand and customers' needs"*.

The first Collection expresses the commitment to high performance, thanks to characteristics that are developed in each item. The products are strong yet lightweight thanks to a superior choice of materials, with maximized volumes through construction details in the suitcases and backpacks while the leather goods receive additional elements oriented towards comfort. A deep knowledge of the product and many years of passion in production meet classic minimal design looks and durability across the Collection. The model range features a selection of hard- and softcase luggage, bags, backpacks, and small leather goods, ranging from business to leisure-inspired products.

ROADSTER HARDCASE

The Roadster Hardcase Collection comes with a striking design by Studio F.A. Porsche. Lightweight and volume are key when it comes to travelling.

The Collection is made from lightweight polycarbonate, flexible and resistant, featuring two different finishing: matte or shiny, available in automotive inspired colors. The style is enhanced by Porsche Design logo on the front and on the handles, the lining shows a Porsche Design icon print. A robust multi-stop trolley system with an ergonomic handle lifts the trolley to the highest performance level. A double coil ultra-secure zip and TSA-approved lock with combination protect your belongings from potential intrusion. With silent run ball bearing wheels for added traction and shock absorption. Top and side handles are made of genuine leather, comfortable and elegant, durable and ergonomic for easy carrying. The trolley is lined with tear-resistant textile and a wide panel divides the inside into two separate compartments that helps packing the bag. Both functional pockets and compression system assure the highest versatility. The commitment to high performance put up to a next level with the Porsche Design Roadster Hardcase Series, manufactured and engineered by Bric's.

Die Hartschalenkoffer aus der Kollektion Roadster überzeugen durch ihr eindrucksvolles Design aus dem Studio F. A. Porsche. Geringes Gewicht und großes Volumen sind zentrale Anforderungen, wenn es ums Reisen geht. Die Kollektion aus leichtgewichtigem Polycarbonat bietet Flexibilität und hohe Stabilität, mit zwei verschiedenen Veredelungen: matt oder glänzend, erhältlich in Automobilfarben.

In puncto Stil wird die Kollektion mit dem Porsche Design Logo vorn und an den Griffen aufgewertet, das Innenfutter ist mit einem Porsche Design Symbol bedruckt. – Mit einem robusten mehrstufigen Stoppsystem und ergonomischem Griff bietet der Trolley beste Performance. Ein ultrasicherer Zweiwegereisverschluss und ein TSA-Schloss mit Zahlenkombination schützen das Reisegepack vor unbefugtem Zugriff. Ein weiteres Plus: Kugelgelagerte leichtlaufende Rollen sorgen für zusätzliche Traktion und Stosdämpfung.

Die Griffe oben und an den Seiten sind aus echtem Leder – für Eleganz, Langlebigkeit und komfortables Tragen. Innen ist der Koffer mit reisfestem Gewebe ausgekleidet und in zwei Bereiche unterteilt, um das Packen zu erleichtern. Die funktionellen Taschen und das Kompressionssystem gewährleisten höchste Vielseitigkeit. TRAVEL ACCESSORIES

Packing cubes, shoe bags and garment bags designed to protect valuables and clothes. This small range of items helps make your packing more organised, and makes it easier to reach items in your luggage without unpacking everything. Made from polyester fabric and with the Porsche Design signature lining, these travel must-haves are designed to make travelling as beautiful as it is functional.

The packing cubes can be used to compress and organize anything inside the suitcase, from socks and shirts to the bulkiest items, and expand to offer additional room when required. Equipped with handles, the cubes are sized to optimise space in any configuration. Pack everything into the cube and simply place it in your luggage.

Inside the shoe bag there is a flexible padded divider, to keep each shoe separate and protect them from scratches. Both clothes and shoes are protected.

The garment bag is compact and lightweight. A suit or delicate garment is easily packed and protected from creasing when carried in the garment bag. The additional handle makes it ideal for carrying.

The sizes are designed to fit perfectly inside Porsche Design luggage. Every item of this Collection will be delivered in a luxurious Porsche Design branded cardboard box.

Packwürfel, Schuhbeutel und Kleidersäcke, die zum Schutz von Wertsachen und Kleidung entworfen wurden. Diese kleine Auswahl an Artikeln hilft Ihnen, das Packen besser zu organisieren und erleichtert das Herankommen an Gegenstände in Ihrem Gepäck, ohne alles auspacken zu müssen.

Die aus Nylongewebe gefertigten und mit dem charakteristischen Porsche-Design-Futter versehenen Reise-Must-haves wurden entworfen, um das Reisen ebenso schön wie funktional zu gestalten.

Mit den komprimierbaren Packwürfeln lässt sich alles im Koffer organisieren, von Socken und Hemden bis hin zu den sperrigsten Gegenständen. Bei Bedarf lassen sie sich sogar vergrößern und bieten so zusätzlichen Platz. Die mit Griffen ausgestatteten Würfel sind so dimensioniert, dass sie in jeder Konfiguration den Platz optimal nutzen. Packen Sie alles in den Würfel und legen Sie ihn einfach in Ihr Gepäck.

Im Inneren des Schuhbeutels befindet sich eine flexible, gepolsterte Trennwand, um die Schuhe getrennt voneinander aufzubewahren und sie vor Kratzern zu schützen. Sowohl Kleidung als auch Schuhe werden geschützt.

Der Kleidersack ist kompakt und leicht. Ein Anzug oder ein empfindliches Kleidungsstück lässt sich im Kleidersack leicht verpacken und wird vor Knitterfalten geschützt. Der zusätzliche Griff eignet sich ideal für den Transport. Die Größen sind so gewählt, dass sie perfekt in das Porsche-Design-Reisegepäck passen.

Jeder Artikel dieser Kollektion wird in einer luxuriösen Box mit dem Porsche-Design-Logo geliefert.
